## Save The Girl

*To be born a girl in India means facing a lifetime of deprivation and hardship. Girls are second-class citizens and their curse of being a girl affects every aspect of life.*

Care India believes that if a girl is given the opportunity to complete her education, she will be able to break the chains of poverty for herself and generations to come. The program removes the economic burden placed on families so they are able to keep their girls in school for as long as possible.
